Objective

Motivated and self-driven IT student seeking an internship opportunity to enhance my front-end development and software engineering skills. Eager to contribute to real-world projects, learn from industry professionals, and deliver high-quality solutions.

Education

PhD (Artificial Intelligence) – Air University, Islamabad (2031–2035)

MS (Computer Science) – Fast University, Islamabad (2029–2030)

BS (Information Technology) – Bahria University, Islamabad (2024–2028)

Professional Experience

Senior Software Developer (2042-Present - Islamabad, Pakistan)

Tech Solutions International

- Lead a team of five developers to design and deliver enterprise-level software products.
- Architect system design for large-scale applications serving 10,000+ concurrent users.
- Review code and mentor junior developers, improving overall code quality by 25%.

Software Developer (2039-2041- Lahore, Pakistan)

Digital Innovations Ltd

- Developed full-stack web applications for 15 clients across diverse industries.
- Integrated databases, RESTful APIs, and cloud platforms to deliver projects on schedule.
- Improved software performance by 20% through systematic bug fixing and optimization.

Assistant Software Developer (2036-2038 - Karachi, Pakistan)

NextGen Technologies

- Assisted senior developers in writing and testing production-level application code.
- Documented software features and user manuals to support knowledge transfer.
- Participated in daily standups and sprint meetings to maintain project velocity.

Skills

- **Web Development:** HTML5, CSS3, JavaScript, React, Tailwind CSS, Bootstrap
- **Programming Languages:** C++, Python (Basic)
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Lighthouse
- **UI/UX Design:** Figma (Basic), ShadCN UI, DaisyUI

Certifications

- Advanced AI and Machine Learning (2031)
- Certified Python Developer (2030)
- Full Stack Web Development (2028)
- Git and GitHub Mastery (2027)

Projects

Quote Generator App (Next.js, Tailwind CSS)

Built using App Router, DaisyUI, ShadCN UI, and server components

Integrated theme toggle, search functionality, and smooth transitions

Performed accessibility testing with Lighthouse

Deployed using Vercel

Walk 'n' Talk – Footwear E-commerce Website

Created a responsive shopping layout for Men, Women, Kids, and Sale Built custom sliders, banners, and static navigation

Future plans include cart features and backend integration

Bank Management System (C++)

Console-based app for account creation, deposits, withdrawals, and balance inquiry Applied OOP concepts, file handling, and menu-driven programming

Mini JavaScript Projects Collection

1. **Calculator:** Fully functional with basic operations
2. **Tic Tac Toe:** Two-player game with win detection
3. **Image Gallery:** Click-to-expand images using light box
4. **Music Player:** Embedded with a custom UI
5. **To-Do List:** Add/edit/delete tasks with local storage
6. **Login Page:** Simple validation with HTML/CSS

Languages

English: Fluent in Reading, Writing, Speaking

Urdu: Native

Punjabi: Fluent

Hobbies and Interests

- Open-source contribution and tech blogging
- Hiking and camping in the Margalla Hills
- Reading research papers and non-fiction books
- Chess, puzzles, photography, and video editing
- Exploring new programming languages
